---

Ms Persons,

1. I had to ask twice to get a folder. Ms Martin Solis told me no. I asked again in front of the entire staff and you got me one.
2. I asked for this science unit last year and never got a response from you nor anyone. I sent requests to Mr Butler, Ms Ali, Ms Harris and cc'd you with each request. When we had our meeting with Dr Sample, you told him that you would get the pieces.
3. We do not have button batteries.
4. The DJ stations were not in room 33 initially, just like the wheels.  I didn't open the box. I didn't put it on top of headsets. They obviously appeared out of thin air.
5. Sketch suggested they were stolen. I did not. I said they were missing and that Nico had a blank A key that his mom gave him.

This is gaslighting, at best. You have sent your friends to frustrate me because I won't pretend that everything is ok. Hiding my equipment is petty. Trying to isolate me isn't working either.

When will I get the DJ Stations and the wheels? What about the rest of the studio equipment?

It's funny that when I was responsible for morning assembly, we had to have it daily. But now that you and Ms Harris have to manage the lack of preparation from the student leaders, we will only have it once a week this year.

The students, parents and teachers ask me daily about when music will start. Hopefully you will look at the new schedule quickly so we can start this week. I'll work on it tomorrow since I'm not allowed to be on campus outside of work hours.

When will the seasonal concerts and Magnet Family Meeting be added to the master calendar?  Thank you for finally giving me access.

Ms. Bone,

During the banked time meeting on Tuesday, August 13th, you did receive a folder with the beginning of the year packet inside. I personally placed it in your hand. Ms. Blackburn made name labels for roster carrying teachers because she wanted them to have a hard copy of their grade level ELA and Math pacing guides. Having their name on the folder made it easier for her to identify which teacher needed which grade level material. You were not the only certificated teacher who did not have their name on a folder. My apologies if you felt left out.

With regard to the items you are in need of. I am the only person on campus who can authorize a purchase. You have not sent me a request to purchase any items that I recall prior to Friday. Ms. Ali cannot make any purchases. Any purchase request that is made must be approved by me. I will review your request and get back to you. We have batteries in the supply room. Complete a supply request via Ms. White.

I suggest you thoroughly look through all the boxes in your room for the "missing" items. In a previous email you stated that 11 DJ stations were missing (and insinuated that they were stolen) but I went into your room on August 13$^{th}$ around 4:15 and 8 of the 12 DJ stations were in your room. I know where the others are.

Regards,
Ms. Persons

**Subject:** Restorative Justice Meeting, Music Supplies and Master Calendar

Hi Ms Persons,

This is clearly harassment and crazy-making. No one in the A team considers me a teacher. I didn't get a packet at the first staff meeting because Ms Martin-Solis said I couldn't have one, despite all other teachers received folders with their name pre-labeled. Then today, I wasn't assigned a group and have no way to sign in/out for the meeting time.

Hopefully, we will have a restorative justice meeting soon. I'd like Ms Sanford, Ms Harris and Ms Ali to meet with us. Nico and Ms Craig shouldn't interact with the Music Magnet this year, so they don't need to be involved. Once you approve my schedule, Ms Craig should not be allowed to change it.

---

You told Dr Sample that I should ask you for the things needed because Ms Harris and Ms Ali won't purchase anything for me.

https://docs.google.com/spreadsheets/d/1w8oKbnndOsdha8aNPw-kPG8gT5eMq0kFrdUZEmH2WAY/edit?usp=sharing

I want to do 3 lessons for the Science Unit: $4^{th}/5^{th}$ will create individual meditation songs playing and arrange students playing singing bowls, tuning forks and untuned percussion instruments. $2^{nd}/3^{rd}$ will do a Cymatics project where they document the different frequencies from the bowls, tuning forks and found sounds using sand on a Cymascope. Kinder and $1^{st}$ will write a gratitude song with buzzing bees in the background, "Bee Grateful". I have most of the supplies for K/1....I am still waiting on the curtains/blankets to soundproof the studios and another box of wheels.

I also need batteries for the mini keyboards (AA)and tuners (button).

1. 1 mini keyboard controller is missing.
2. 1 LAUSD issued record player is missing.
3. When will I get the DJ stations that you "found"?
4. Who is going to add the rest of the wheels for the work stations?
5. When will you follow up with Sketch regarding the Classroom Bundle of Orff instruments? Everything Sketch bought was delivered to Marina del Rey, not directly to Hillcrest. The invoice (5.5.2023) doesn't have any helpful information for me to get the answers myself because he bought everything at wholesale and charged us at cost. The bundle is the first item on the invoice. (see attachments)

When will I have access to the Master Calendar? I requested access a second time at the staff meeting and still don't have it.

Musically yours,

Ω
